

TITAN

E-MTB STAGE EXPERIENCE

EBIKE

The Titan Ebike is a new way to immerse yourself in the world of the Škoda Titan Desert Morocco. We propose a journey where you will discover a part of Morocco coinciding with the celebration of the race. A bike trip that will allow you to explore the culture of an ancient people, their rich gastronomy, and the hospitality of their community, all condensed into a 5-day journey of great intensity.

Moreover, you'll have the opportunity to pedal with your bike through some sections of the last three stages of the Škoda Titan Desert Morocco. This journey comes with all the amenities, accompanied by a guide, an organization vehicle, and the same coverage and infrastructure provided to the race participants.

The E-Bike program opens the doors to a sports-cultural and non-competitive journey that will leave you amazed — a unique experience with all the facilities at your disposal.

EBIKE

MONDAY, APRIL 29, 2024 DEPARTURE FLIGHT TO MOROCCO

TUESDAY, APRIL 30

Yesterday, you arrived late at the hotel after a long journey. Today is a transitional day, a day to rest, wake up leisurely, and get to know the people who will accompany you on this adventure.

We'll start the day by enjoying breakfast at the hotel, followed by a meeting at the reception area where we'll have a briefing to review the general dynamics of the trip. You will receive the welcome pack with your geolocation devices, and we'll take a short bike ride to ensure everything is in order.

It's a day to enjoy the hotel, acclimate to the country, get to know the group, and prepare for what lies ahead.

WEDNESDAY, MAY 1

STAGE 1: MAADID – ERG CHEBBI

We will start the day by enjoying breakfast at the hotel before heading to collect our bikes. The guide will provide detailed information about what to expect during Stage 1. After completing the stage, we will have lunch at the Titan camp, specifically at the Belle Etoile camp, a spectacular camp situated in the midst of the dunes. Here, we'll have time to rest and share our adventures with fellow participants. Before dinner, there will be an informative briefing about the stage participants will tackle the following day. Following dinner, we will rest and recharge for the two remaining days of e-biking ahead.

ROUTE DESCRIPTION - STAGE 1:

Distance: 80 kilometers

Our first day on the bike will lead us to discover one of the most breathtaking landscapes in the area, the dunes of Erg Chebbi. After breakfast at our hotel, we will ride along a local road towards the city of Rissani, where we will stop to visit its colorful market, unique in these latitudes. This market supplies products to the tribes and nomads of the desert.

We'll grab a snack here to recharge and venture through the alleys of Rissani until we reach a spectacular palm grove. From there, we'll take a track that leads us to the majestic Erg Chebbi. At this location, we'll get to know the iconic Titan camp, where participants will sleep during the 4th and 5th stages.

THURSDAY, MAY 2

STAGE 2: ERG CHEBBI – ERG CHEBBI

After breakfast at the camp, we will visit the village of Merdani, a very characteristic nomadic village in the area. We will have the unique opportunity to explore the Oasis Tissermine, a spectacular palm oasis from where we can observe the race. From the oasis and after witnessing the race, we will pedal back to the camp to have lunch and spend the afternoon at the same camp as yesterday, the Belle Etoile camp where spectacular tents with all the comforts will be the perfect place to rest.

ROUTE DESCRIPTION - STAGE 2:

Distance: 75 kilometers

The second stage will take us to the breathtaking Oasis Tissermine. After lunch, we will venture with our e-bikes through a circuit among dunes that will lead us to the impressive Erg Chebbi, the location of the Titan camp.

FRIDAY, MAY 3

STAGE 3: ERG CHEBBI – MAADID

It's the last day of cycling that will take us from Erg Chebbi to the finish line of the Škoda Titan Desert Morocco.

After breakfast at the majestic campsite in the middle of the dunes, we will start our last stage, concluding when we cross the finish line of the race. Once the stage is completed, we will hand over our bikes to our support team for disassembly.

Lunch will be at the hotel, and the afternoon will be free. Before dinner, we will attend the awards ceremony for the Škoda Titan Desert Morocco 2023, at the hotel premises. After dinner, we will move to our last overnight location.

ROUTE DESCRIPTION - STAGE 3:

Distance: 70 kilometers

The final stage of the race becomes the grand celebration for the Titans, marking the end of over 600 km covered over 6 days. The circuit for the eBike Experience program will begin before the start of the main participants. We will ride the last stage up to a specific point, where we will stop to witness the passage of the first competitors. Afterward, we will deviate from the official race route, taking a different track until rejoining it in the final part of the course, sharing the last kilometers of the race. Crossing the finish line arch will mark the end of these three days on our e-bikes in Morocco.

We will have dinner and stay overnight at a 4-star hotel (double accommodation).

SATURDAY, MAY 4

RETURN FLIGHT TO BARCELONA-MADRID

The experience comes to its conclusion. On this day, an early start is necessary to be at Errachidia Airport by 6:00 AM for our return flight. A bus will transfer us from the hotel to the airport.

Return to Barcelona or Madrid via regular flight (layover in Casablanca. Schedules to be confirmed by the airline).*

FRIDGE

The TITAN EBIKE will take place from April 29 to May 4.

The 3 days when we will ride our bikes to explore sections of the stage route will be from May 1 to May 3, the same days as the last 3 stages of the Škoda Titan Desert Morocco 2024. Registrations are limited.

- Physiotherapy and mechanical assistance.

THE E-BIKE PROGRAM PRICE IS **€1,645.**

FBIKE

FAQS

WHAT ARE THE DATES OF THE TITAN EBIKE PROGRAM?

The program spans 6 days, from April 29th to May 4th. Participants will arrive in Morocco on April 29th and depart on May 4th.

HOW DO I TRAVEL TO MOROCCO?

Registration for the Titan Ebike program includes transportation to Morocco on a regular flight, with the possibility of layovers, from Barcelona or Madrid. To travel to Morocco, each participant must possess a passport with a minimum of 6 months validity beyond the race.

HOW DO I TRANSPORT MY ELECTRIC BIKE TO MOROCCO?

Electric bikes from the ebike program travel in the same convoy as the rest of the participants. Therefore, they must be at the RPM warehouse in Barcelona, packaged, on a date that will be communicated later, around 20 days before the start of the event. Once there, the organization takes care of transporting them to Morocco.

HOW CAN I CHARGE MY E-BIKE BATTERY?

There will be a designated area in the camp for charging electric bikes, monitored by the organization's staff.

SHOULD I BRING AN EXTRA BATTERY?

It is not mandatory, but you can bring an extra battery if you wish.

FAQS

WHERE DO I SLEEP DURING THE PROGRAM?

For the 5 nights of our journey, we will sleep in hotels: Hotel Xaluca, Campamento la Belle Toille, and Hotel Chergui, in double rooms.*

*Or single (extra cost of €250 subject to availability)

IF I PARTICIPATE IN THE E-BIKE PROGRAM, DO I ENTER THE OVERALL CLASSIFICATION OF THE ŠKODA TITAN DESERT MOROCCO?

No, the Titan Ebike program is non-competitive, so there is no overall classification.

HOW MANY KILOMETERS WILL WE COVER EACH DAY?

Between 55 and 75 km daily. These distances may change depending on the upcoming reconnaissance of the race.

SHOULD I BRING A GPS DURING THE ROUTE?

Yes, it is mandatory for all participants to carry a GPS. The organization will provide the route tracks for download onto the device beforehand. These tracks may vary if the group guide decides. Carrying the GPS is essential to be autonomous if needed. Additionally, the organization will lend all participants a geolocator, which should be returned upon arrival and will be used to keep track of everyone at all times through the PC Course.

SHOULD I BRING WATER DURING THE ROUTE?

All participants must start with a minimum of 1.5L of water provided by the organization at the starting point. Participants will be self-sufficient in deciding what solid products to bring and when to consume them.

ARE THERE SUPPORT VEHICLES DURING THE STAGES?

Yes, the peloton will be followed by a 4x4 support vehicle with organization members in case of any issues.
