

TITAN EBIKE

The Titan E-bike is an adventure closely tied to the Škoda Titan Desert Morocco, but it is non-competitive and done on electric bikes. A new way to experience the Titan spirit from within, sharing routes with the rest of the race peloton, discovering the camps, and riding through unforgettable landscapes.

You will ride your bike through sections of the last three stages of the Škoda Titan Desert Morocco, while also immersing yourself in the local culture and sharing the experience with other Titans.

The trip offers all the conveniences, accompanied by a guide, an organizational vehicle, and the same support and infrastructure provided to race participants.

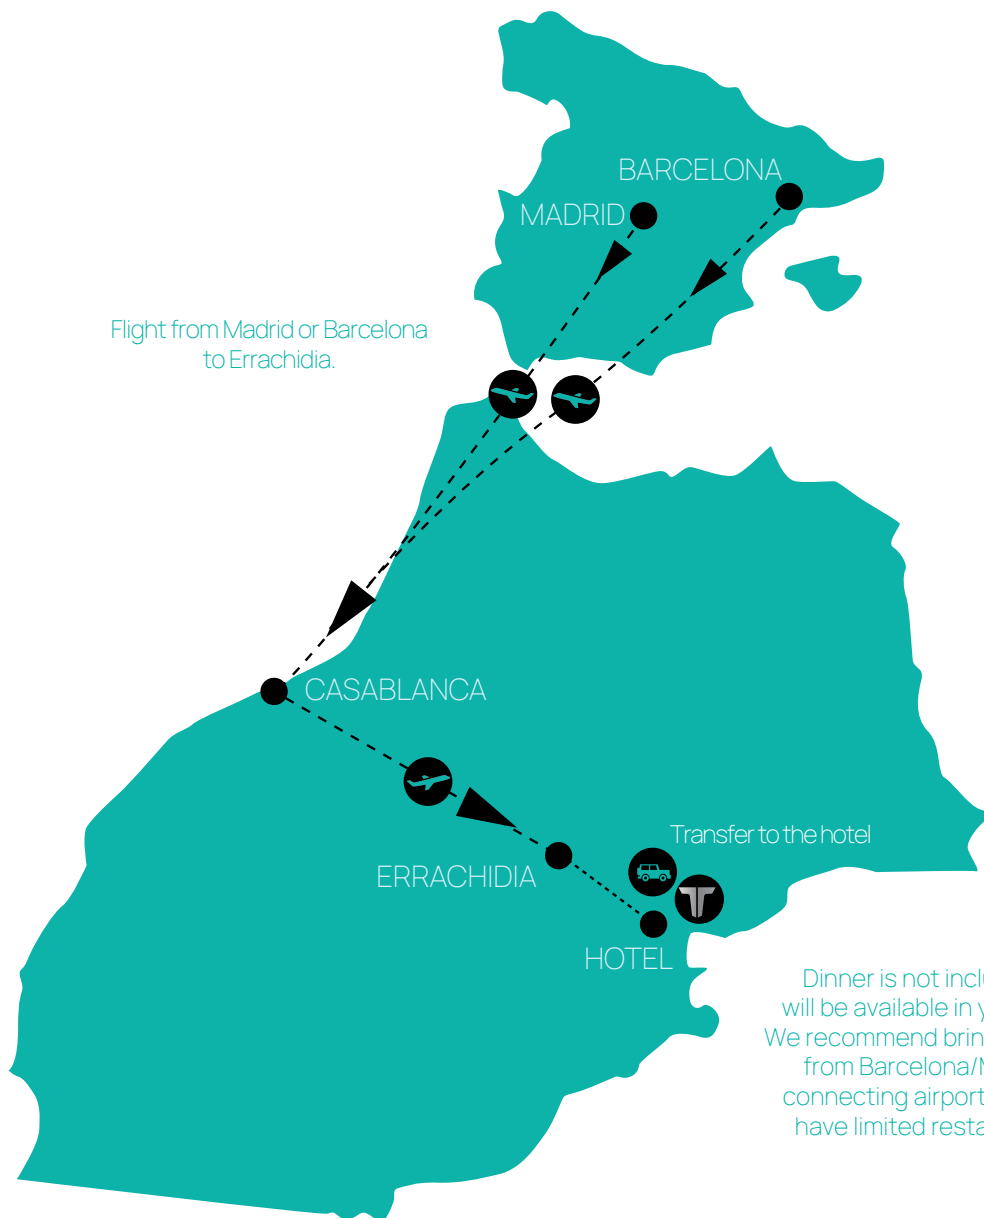

The Titan E-bike program opens the door to a non-competitive adventure that will challenge you and leave a lasting impression.

EBIKE

FRIDAY, MAY 2, 2025
FLIGHT TO MOROCCO

Dinner is not included. A snack will be available in your hotel room. We recommend bringing some dinner from Barcelona/Madrid, as the connecting airports (Casablanca) have limited restaurant options.

SATURDAY, **MAY 3**, 2025

The previous night, you arrived at the hotel after a long journey. Today is a transition day, a chance to rest, wake up at your own pace, and get to know your companions for this adventure.

The day begins with breakfast at the hotel, followed by a briefing at the reception to go over the trip's general dynamics and receive your welcome pack, including geolocation devices.

In the afternoon, a short 20 km stage is planned to loosen up, test the equipment, and shake off any nerves.

PROLOGUE STAGE DESCRIPTION: 20 KM

A route around the hotel with easy trails, some sandy sections, and along an irrigation canal near a nearby oasis.

An ideal day to get acquainted with the terrain you'll face in the coming days.

SUNDAY, **MAY 4**, 2025
STAGE 1: RISSANI - M'CISSI (68 KM)

After breakfast, a transfer will take us to the starting point of the stage.

The route will introduce us to the rest of the Titans and the marathon stage camp. After the stage, we'll rest and share the camp with the entire peloton, attend a briefing, dine, and prepare for the remaining E-bike stages.

Our camp will include all the comforts of a regular camp, unlike the minimalist conditions for marathon stage participants.

STAGE HIGHLIGHTS:

Departing from Rissani after a bus transfer and picking up our bikes.

Starting at a spectacular viewpoint near a vast chott on the desert outskirts.

Mixed terrains: sandy, rocky trails improving as we progress, and a fast final section to the camp.

Overnight stay in comfortable haimas, experiencing life as true Titans.

MONDAY, **MAY 5**, 2025
STAGE 2: M'CISSI - EL JORF (60 KM)

After camp breakfast, we begin a stage leading to El Jorf. After refreshing ourselves, we'll visit the famous underground wells of El Jorf. Following this, a transfer will take us to our hotel for a restful night.

STAGE HIGHLIGHTS:

Starting minutes after the peloton, heading east towards the famous Landouare Mountain.

Ascending the summit for breathtaking views, then returning to the base and heading north.

Fast trails leading to El Jorf and a visit to its unique underground wells.

TUESDAY, **MAY 6**, 2025
STAGE 3: EL JORF - MAADID (50 KM)

The final day of riding in the desert—a memorable day as you become a finisher of this grand adventure.

Today's route will share a large part with that of muscle bikes. After reaching the finish line, we will hand the bicycle over to our assistance so they can dismantle it.

We will eat at the hotel and have the afternoon free. Before dinner, we will attend the awards ceremony for the Škoda Titan Desert Morocco 2025 in the same hotel facilities. After dinner, we will go to the hotel to spend the last night.

STAGE HIGHLIGHTS:

Following the muscular bike route closely.

A mix of oueds, desert monuments, and rocky but flat trails, ending at Hotel Xaluca.

Culminating with small dunes to complete this spectacular journey.

WEDNESDAY, **MAY 7**, 2025
RETURN FLIGHT TO BARCELONA/MADRID

The adventure concludes. We'll depart early to catch a 6:00 am flight from Errachidia, with a bus transfer from the hotel.

Return to Barcelona or Madrid with a regular flight (stopover in Casablanca. Times to be confirmed by the company).

EBIKE

The TITAN EBIKE will take place from May 2nd to 7th.
Three stages and a prologue that will be disputed from May 3th to 6th, the same days as the last four stages of the Škoda Titan Desert Morocco 2025.

- GPS (participants must bring their own, and the organization will provide the tracks).
- Physiotherapy and mechanical assistance.

TITAN EBIKE

Program Price: € 1,795

EBIKE

WHAT ARE THE DATES OF THE TITAN EBIKE PROGRAM?

The program spans 6 days, from May 2nd to May 7th.

HOW DO I TRAVEL TO MOROCCO?

Registration for the Titan Ebike program includes transportation to Morocco on a regular flight, with the possibility of layovers, from Barcelona or Madrid. To travel to Morocco, each participant must possess a passport with a minimum of 6 months validity beyond the race.

HOW DO I TRANSPORT MY ELECTRIC BIKE TO MOROCCO?

Electric bikes from the ebike program travel in the same convoy as the rest of the participants. Therefore, they must be at the RPM warehouse in Barcelona, packaged, on a date that will be communicated later, around 20 days before the start of the event.

Once there, the organization takes care of transporting them to Morocco.

HOW CAN I CHARGE MY E-BIKE BATTERY?

There will be a designated area in the camp for charging electric bikes, monitored by the organization's staff.

SHOULD I BRING AN EXTRA BATTERY?

It is not mandatory, but you can bring an extra battery if you wish.

WHERE DO I SLEEP DURING THE PROGRAM?

The first and second night you will sleep at Hotel Xaluca Maadid. The third night you will sleep in a camp that you will share with the rest of the Titans. The fourth night you will sleep at Xaluca Maadid Hotel and the last night you will sleep at Palace Hotel. Always in twin room*.

*Or single (extra cost of €250 subject to availability)

IF I PARTICIPATE IN THE E-BIKE PROGRAM, DO I ENTER THE OVERALL CLASSIFICATION OF THE ŠKODA TITAN DESERT MOROCCO?

No, the Titan Ebike program is non-competitive, so there is no overall classification.

HOW MANY KILOMETERS WILL WE COVER EACH DAY?

Between 20 and 70 km daily. These distances may change depending on the upcoming reconnaissance of the race.

SHOULD I BRING A GPS DURING THE ROUTE?

Yes, it is mandatory for all participants to carry a GPS. The organization will provide the route tracks for download onto the device beforehand. These tracks may vary if the group guide decides. Carrying the GPS is essential to be autonomous if needed. Additionally, the organization will lend all participants a geolocator, which should be returned upon arrival and will be used to keep track of everyone at all times through the PC Course.

SHOULD I BRING WATER DURING THE ROUTE?

All participants must start with a minimum of 1.5L of water provided by the organization at the starting point. Participants will be self-sufficient in deciding what solid products to bring and when to consume them.

ARE THERE SUPPORT VEHICLES DURING THE STAGES?

Yes, the peloton will be followed by a 4x4 support vehicle with organization members in case of any issues.
